SmartLink®

A SMART ADDITION TO ACTIVE LEARNING SPACES

SPACES THAT PERFORM

The modern classroom is constantly evolving. Research shows that students are learning together, working in groups and interacting with peers. Teachers are even joining in, rather than instructing from the front of the room. This advancement in learning makes the ability to adapt and change throughout the day a critical aspect of learning. It stimulates thinking, allows for greater interaction and supports a variety of teaching styles. Through our Voice of the Customer Process, HON discovered that most classroom furniture is not set-up to handle this type of change. That's why we created SmartLink, a holistic collection of desks, chairs, storage and presentation tools designed to keep students and teachers organized, energized and attentive throughout the day.

PLANNING FOR CHANGE

Individual time at 8:30. Traditional lecture at 10:30. Then break into groups throughout the day. As our research indicates, traditional lecture formats are giving way to group sessions and mentoring. This demands environments that are open, accessible, and accommodate the need for a variety of learning opportunities. HON designed SmartLink to be lightweight and mobile, which helps teachers respond to the ways students learn today, and adapt to new ways of learning tomorrow.

E

A-E. INTEGRATED COMPONENTS
SmartLink uses five components to support various learning styles and classroom activities. Each is designed with a range of users in mind, yet is unified both aesthetically and functionally.

A. TEACHER STATION
Put teachers in control of their storage, technology and environment.

B. STUDENT DESK
Innovative worksurface shape supports creative configurations.

C. CHAIRS
Designed to the unique ways students sit and move throughout the day.

D. WALL RAIL SYSTEM
Organize lesson plans and make the most of unused wall space.

E. MODULAR STORAGE
Move educational tools wherever the activities demand.

THE REAL TEACHER'S PET

Every teacher deserves a hardworking assistant, and the SmartLink teacher station is perfect in that role. With greater comfort, more legroom, intuitive storage and a larger worksurface area, it has everything a teacher needs to inspire. It is available both left- and right-handed, as well as a compact version is perfect for teacher assistants or volunteers. The mobile design allows teachers to constantly evolve the classroom environment to adapt to various ways of learning.

GRADUATE TO THE NEXT LEVEL

The SmartLink teacher station earns high marks with educators for its integration of technology. Power hubs charge technology within arm's reach, while the wire management cleanly routes and hides cables. Plus, both the standard and compact teacher stations are highly mobile and adapt quickly to support changing needs.

STUDENT DESKS THAT GET ALL A'S

The unique shape of SmartLink student desks allows teachers to get creative with their layouts. Perfect for configurations ranging from stand-alone desks to groups of four or more students, SmartLink desks are designed to support right- and left-handed users without specifying different models. Also, because kids will be kids, SmartLink worksurfaces resist defacing to keep them looking good year after year.

ACCESSIBILITY

In the forward position, the legs are wide enough to accommodate wheelchair access.

BOOK BOX

Optional storage space keeps the desk area neat and organized.

BACKPACK HOOK

Add this optional hook to keep backpacks off the floor.

GANGING BRACKETS

Create secure layout configurations by temporarily connecting desks.

CONFIGURATIONS

The innovative design allows student desks to be arranged into collaborative, teaming, group, or teacher-centered layouts.

FIXED HEIGHT

30" height accommodates the majority of users.

ADJUSTABLE HEIGHT

Adjusts from 23-33" to support users of all sizes.

SIT-TO-STAND

Converts from 30" seated-height to 43" standing-height.

RIGHT-HANDED POSITION

LEFT-HANDED POSITION

COMFORT THAT IS AHEAD OF THE CURVE

SmartLink chairs use a responsive, contoured design to support the way students move, allowing them to turn around, sit sideways, lean back and stay comfortable for longer periods of time. The flexible Learning Curve™ design encourages a wider range of movement, keeping students focused and attentive throughout the day. The lightweight frame with casters or glides make it easy to reconfigure the classroom at a moments notice.

VERSATILITY TO PASS ANY TEST

The SmartLink collection of storage and presentation tools works well with others. The design integrates with SmartLink chairs and student desks, as well as other educational furniture such as Build™ tables. Create a dynamic environment by adding Wall Rail systems and mobile, modular storage components with options tailored to personal preference and teaching styles.

STAY ORGANIZED

With the addition of sliding trays or tablets to storage cabinets, teachers can assign one to each student and organize classroom materials or laptops.

READY AT A MOMENTS NOTICE

Managing change and controlling clutter are critical in classroom environments. Teachers can take advantage of SmartLink desk-height or a full-height modular storage cabinets to maintain an organized area. A collection of optional features enhance the functionality. Removable shelves and 3", 6" and 12" deep trays can be configured in seconds.

LAYERS OF LEARNING

Why settle for a single whiteboard? The SmartLink wall rail system maximizes wall and writing space by combining multiple sliding whiteboards. Boards can be reversed to double the writing space, and optional rail accessories keep markers, files and papers organized and ready when needed.

STORAGE CABINET

SmartLink modular storage comes in two sizes: a desk-height version and a tall cabinet that doubles as a classroom divider.

WHITEBOARD

Add a cabinet bracket and whiteboard to the back of the tall storage for additional student work areas.

LOCKING DOORS

Optional locking doors add security to storage cabinets.
