LOUNGE

CONNECTIVITY AND COMFORT COME NATURALLY.

A WELCOME ADDITION TO ANY SPACE

It doesn't take research to tell us that we're happier when we're comfortable. We all do our best when we feel relaxed and supported. So who said comfort and productivity can't coexist? Say hello to Grove. It's the versatile lounge collection designed to help you greet, meet, focus, relax and accomplish more. Whether you're looking to bring people together or respect their personal space, Grove is the natural choice.

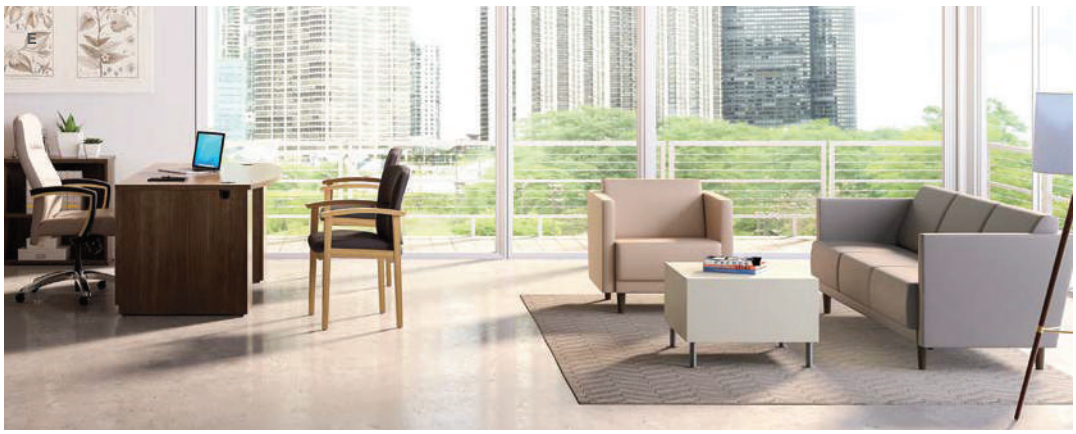
ALL THE COMFORTS OF HOME

Thick, comfy cushions. A place to put your feet up, huddle up and power up. Remind you of home? Grove supports today's agile workforce with a change-of-pace lounge that delivers the comfort people crave, while encouraging focus and interaction throughout the workplace. Take a break from the workstation. Grab a latte with a colleague. Grove is proof that giving people choice over how and where they work can lead to a happier, more creative culture.



A. FIRST IMPRESSIONS
How you greet guests speaks volumes about you, and offering comfort, connectivity and convenience is step one toward making a great impression.

B. TAKE FIVE. OR TEN.
Enjoy a cup of joe. Pull up a chair with a friend. Get a quick change in scenery and stay productive away from the workstation.

C. NEVER DOUBLE BOOKED
Getting the conference room when you need it can be like winning the lottery. Grove settings with tablet arms and table top surfaces make it a win-win.

D. FOOD FOR THOUGHT
Mid-morning breaks. Working lunches. Brainstorming sessions. There's so much more happening in cafés these days, and Grove makes them all more comfortable.

E. THE CORNER OFFICE
Help leaders transition from heads-down focus to relaxed collaboration — all in the same office.

Shown with Accommodate and Ignition seating. Inspired by HON color palette Spice.

SITTING PRETTY

Grove is as comfortable in the workplace as it would be in a Museum of Modern Art. The design draws a crowd. The legs turn heads. The dual fabric makes a bold statement. As attractive as it is, Grove's natural beauty is rivaled only by its flexibility. There are four sizes and multiple styles to choose from. Accessories that support connectivity and collaboration. It's why Grove has the look you're going for, and the comfort and versatility people have been waiting for.
