Ignition[®]

THE PERFECT FIT

DESIGNED AROUND YOU. AND YOU. AND YOU.

You are one of a kind. So shouldn't your chair be designed with that in mind? We think so. Not only does Ignition fit your height and weight to a tee, it offers sophisticated materials for pinpoint comfort just where you want it. With a great mix of back heights and styles to choose from, it works everywhere. Just like you.

Shown with Ignition® and Flock® seating, Voi® desk, Empower® workstations, and Preside® conference table. Inspired by HON color palette Flamingo Bay. hon.com/fabrics-finishes

MESH WELL TOGETHER

The 4-way stretch mesh uses your weight to flex and move for a softer, more personal fit. Because we all know that the best ideas happen when you really stretch yourself.

Shown with Voi[®], 10500 Series™ and Contain[™].
 Inspired by HON color palette Bouquet.

FLEXIBLE INNER STRUCTURE

Provides targeted support and superior comfort within the slim silhouette of Ignition 2.0

A MATERIAL WORLD

Weave in comfort with style when you choose an Ignition upholstered chair. The 2.0 slim-profile chair, with an optional adjustable lumbar, cradles your back to provide support without the bulk. The original Ignition models feature quick-adjust backs that change to six vertical positions.

Shown with Preside® table.
 Inspired by HON color palette Mediterranean.

“Ignition has been a bestseller for years, so when evolving it to meet today’s needs, we didn’t want to lose the elements that have made it so successful. Instead, we added new comfort adjustments, 4-way stretch mesh options and other enhancements that made it an even better fit for the new work day.”
